Owing to the public demand for electricity in Vergennes, day and night, it reported that the Burlington Traction company, owners of the Vergennes Power company, has practically decided to enter the lighting field and furnish day and night service for motors, house lights, and for any other purposes for which there may be public demand. Arrangements are being made by the pow company with the Haviland Shade Roller company to install motors in their plant in place of the present water wheels and thus prevent a consid erable waste of water. It is planned to equip the Addison County Printing company's plant with electric motors when the new office on Main street is ready for occupancy.
